

## Acoustical Ceilings

### **PET FABRIC WRAPPED CEILING PANELS**

PET Fabric Ceiling Panels deliver high-performance sound absorption with a clean, customizable finish. Available in multiple sizes, thicknesses and fabric options, these panels are perfect for direct mounting to ceiling surfaces to help reduce room reverberation.

# Acoustical Ceilings

## PET FABRIC WRAPPED CEILING PANELS

---

**Applications:** Ceilings

### Physical Properties:

---

**Material:** 9mm, 1/2"

**Indoor Environment:** Acceptable for High Humidity applications

**Fire Rating:** Class A (ASTM E84) | Class A (UL 723)

**Weight:** 1680 GSM (9mm) | 2441 GSM (1/2")

### Sustainability and Certifications:

---

- Low VOC
- 100% Recyclable
- 55-60% Post Consumer Recycled Content
- Declare(1/2" PET)
- LEED Declarations Page
- CHPS(1/2" PET)

### Acoustical Performance

Mounting Method (ASTM C423 / ASTM E795)	9mm			1/2"		
	NRC	SAA	Sabin/S.F	NRC	SAA	Sabin/S.F
A	0.35	0.35	.35-.39	0.45	0.45	.46-.53
F25	.55*	.55*	.56-.61*	0.65	0.66	.66-.76
J(Array)	0.45	.47*	.91-.95*	0.55	0.57	1.1-1.2

\*The specific mounting method used during testing can significantly affect the sound absorption data and the resulting Noise Reduction Coefficient (NRC) or Sound Absorption Average (SAA) ratings. Therefore, it is crucial to compare product performance data only when the same test method and mounting type are used, and the mounting type should be as close as possible to the real-world installation method.

## Available Sizes

Custom sizes available upon request.

## How To Specify

### 1. Select Size

- Select size from page 4

### 2. Select Color

---

- Select a color from page 3

### 3. Select Mounting Method

---

- Select mounting method from page 4
