

PET SPACE DIVIDERS

Acoustical space dividers made from PET felt offer an excellent, sustainable solution for reducing noise and enhancing privacy in open-plan workspaces. These eco-friendly panels, made from recycled plastic bottles, effectively absorb ambient sound while providing a durable and aesthetically pleasing visual barrier.

Acoustical Space Dividers

PET SPACE DIVIDERS

Applications: Dividers

Physical Properties:

Material: 9mm, 1/2"

Indoor Environment: Acceptable for High Humidity applications

Fire Rating: Class A (ASTM E84) | Class A (UL 723)

Weight: 1680 GSM (9mm) | 2441 GSM (1/2")

Sustainability and Certifications:

- Low VOC
- 100% Recyclable
- 55-60% Post Consumer Recycled Content
- Declare(1/2" PET)
- LEED Declarations Page
- CHPS(1/2" PET)

Acoustical Performance

Mounting Method (ASTM C423 / ASTM E795)	9mm			1/2"		
	NRC	SAA	Sabin/S.F	NRC	SAA	Sabin/S.F
A	0.35	0.35	.35-.39	0.45	0.45	.46-.53
F25	.55*	.55*	.56-.61*	0.65	0.66	.66-.76
J(Array)	0.45	.47*	.91-.95*	0.55	0.57	1.1-1.2

*The specific mounting method used during testing can significantly affect the sound absorption data and the resulting Noise Reduction Coefficient (NRC) or Sound Absorption Average (SAA) ratings. Therefore, it is crucial to compare product performance data only when the same test method and mounting type are used, and the mounting type should be as close as possible to the real-world installation method.

Available Sizes and Patterns

Custom patterns available upon request.

How To Specify

1. Select Size and Pattern

- Select size and pattern from page 4

2. Select a Color

- Select a color from page 3

3. Select Mounting Method

- Select mounting method from page 4
